PROFESSIONAL SUMMARY

Full Stack Developer with 3+ years of experience delivering scalable web and mobile applications using Java, Spring Boot, React and React Native. Experienced in cross-functional collaboration, with 200+ defects, including 50+ production defects, resolved and 80+ change requests delivered. Specialized in building reusable application architecture, improving application responsiveness, and developing user-friendly, accessible interfaces. Recognized for technical ownership, problem solving, technical leadership and delivery excellence.

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL

Backend: Spring Framework, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, Microservices

Frontend & Mobile: React, Redux, React Native, HTML5, CSS3

Databases: Oracle, PostgreSQL, MySQL, PL/SQL

Tools & Development: Git, GitHub, Maven, Postman, Thunder Client

Practices: Agile, Scrum, SDLC, Code Review, Debugging

PROFESSIONAL EXPERIENCE

Full Stack Developer – Wellness Web & Mobile (POC)

Sep 2025–Present

System Engineer, Tata Consultancy Services (TCS) | Kolkata, India

- Architected 6+ React web & 4+ React Native apps with scalable routing, Redux, navigation, theming and reusable architecture used by 10+ developers.
- Delivered 100+ web & 50+ mobile pages with 70+ reusable components, including dashboards, chatbot, feedback, booking, profile, file upload and graphs.
- Developed 22+ APIs and integrated 50+ APIs, implementing role-based routing, accessible UI and 4+ AI features including chatbot, voice I/O, AI suggestions and page automation.
- Led 10+ developers, conducted 100+ KT/debugging sessions, and delivered key web and mobile enhancements in cross-functional Agile/Scrum teams.

React Developer – Health Web Application

Apr 2025– Aug 2025

Tata Consultancy Services (TCS) | Kolkata, India

- Developed React modules using React, Redux, JavaScript/TypeScript, MUI, Tailwind and REST APIs, with reusable components, routing, state management and themes.
- Built complex UI screens and interactive graphs, implementing configurable themes and responsive, accessibility-focused interfaces from business and design requirements.
- Resolved UI, navigation, state and API issues, collaborating with development and QA teams in an Agile/Scrum environment.

Java Developer – TCS BaNCS

2023– Mar 2025

Tata Consultancy Services (TCS) | Kolkata, India

- Worked on TCS MasterCraft™ DevPlus, resolving defects across Annuity, Policy, and Scheme modules and supporting Workflow, Money, and Calculation in a shared codebase.
- Resolved 200+ defects, including 50+ production/BTS defects, ensuring application stability and release readiness.
- Built a real-time policy search engine with partial-text highlighting, scroll-based loading, and debouncing to improve responsiveness and reduce API calls.
- Debugged JSP, Backing Bean, Service, DAO, and SQL/PLSQL layers; developed queries and supported QA and production troubleshooting.

ACHIEVEMENTS & RECOGNITION

- TCS Service & Commitment Award — Aug, 2026
- TCS Applause for Team Award — May, 2026
